

I cannot believe it is the end of January and we have not had any plowable snow, but who knows what February has in store for us. I don't know about anyone else but these frigid temperatures have me longing for warmer weather, at this point, 50 degrees sounds wonderful.

For February I will be starting a new beginner class, one Saturday every month I will be holding an introductory class to essential beading stitches that you will need on your beadweaving journey.

St Petersburg Stitch

Saturday, February 9th @1:00

[\\$30.00 Kit included](#)

[St. Petersburg stitch seems complicated at first, but once you get the hang of it, it is easy and works up quickly.](#)

[There are two variations, Single St. Petersburg chain, and Double St Petersburg. They both use the same technique with the double connecting the second chain down the middle. This class will show you how to make a Double St Petersburg bracelet using Swarovski Crystal.](#)
