Welcome October

Now that the weather is getting cooler, the days are getting shorter and the leaves are changing color it's time to pick up your needle and thread again and join me in some amazing classes in October.

This month we will be focusing on Quick and Easy with the exception of a new teacher that will be joining us at the end of the month, more on her later.

All of the new beads are up on the new wall and now I am working at trying to put kits and a clearance section together. It has really been a busy month and with taking vacation at the beginning of the month I am trying to play catch up. So bear with me, I will get it done!

May Brisebois will be joining Moonlight Beads and teaching classes starting this month. She will have a meet and greet on [Sunday October 13, at 12:00](#) and will be having a free demo at 1:00pm. She will have a display of some of her work and

possibly a sample of a new class coming soon.
So stop on in and meet her, refreshments will be served and there will be kits for sale on her free demo project.

May Brisebois bio

May first picked up beading in late 2001 as a hobby. Before long she was offered to teach by a local bead store in Georgia in 2003. Later the same year she started working at a bead store after her family was relocated to Massachusetts by her husband's job. Early 2005, her family was again relocated to Atlanta. In mid 2006, she opened her own bead store providing north Georgia full-service jewelry making classes and beading supplies.

After twelve years of successful retail business, May decided to focus her energy on designing and teaching jewelry-making workshops. April 2018, she closed her brick-and-mortar store and began traveling/teaching upon invitation. In the meantime, May and her husband started building their retirement home located in Westport Massachusetts and have planned on moving back in the summer of 2019 where their youngest child begins high school.

Rivoli Pendant and Earrings

Wednesday October 16, @6:00pm

\$15.00 class fee plus kit

In this project we will be experimenting with the bead new to the store, The Rulla. This quick and easy project is great for gift giving as it not time consuming and works up fairly quick.

Morpheus Beaded Bead

Wednesday October 23, @6:00pm

\$15.00 class fee plus kit

Create attractive and versatile beaded beads by embellishing a base of GEMDUOs and Diamonds with seed beads. The kit will include enough materials to complete 7 beaded beads. You can then take your beads and create whatever you would like. Add a string of beads for a necklace using 5 beads then use the other 2 for a pair of earrings or use all 7 and some pearls to make a bracelet.

Seven Rings

Design by: May Brisebois

Saturday October 26 @10:00am

Seven is a significant number; there are seven days in a week, seven colors in the rainbow, seven continents, seven notes in a musical chart, seven heavens, etc.

Some people consider seven to be a lucky number.

This project is based on Tubular herringbone stitch and its variation "Chenille" Stitch. Suitable for advanced beginners. Experience in basic herringbone is helpful.

Rulla Pendant

Wednesday October 30, @6:00pm

\$15.00 plus supplies

We will be playing with Rulla beads again in this class to create this quick pendant. You will be choosing the Rulla bead color of your choice in this class.

Please call the store @508-763-2000 or let me know through facebook or email what classes you will be attending this month. There is a deposit required for May's class on October 26, to reserve your seat.
